

**Features:**

**MS235WT | Touch Screen**

**User-Intuitive Multitouch Interface**

Both intuitive and enjoyable to work with, multitouch lets you tap, scroll, drag, pinch, spin, etc. with your fingers instead of a mouse and keyboard. The multitouch interface works with the growing number of multitouch applications.

**User-Intuitive Multitouch Interface**

Dedicated Touch Panel Pointer

The monitor implements touch panel technology which accepts input from a touch pen.

Dedicated Touch Panel Pointer

**DICOM Preset Mode**

MS-models feature a DICOM preset mode whose grayscale tone is preset on the production line for optimum reviewing of medical images.

**Wide Viewing Angles for Multiple People Use**

Thanks to the wide viewing angles and high contrast ratios of the panel, images can be viewed simultaneously by several people with the highest quality reproduction and minimal color shift.

**Handy Partitioning for Widescreen**

EIZO ScreenSlicer is a desktop monitor software utility that allows an entire screen to be effectively used through partitioning. Multiple windows can be easily aligned and dropped into the partitioned areas in single- or multi-monitor environments for convenience.

Customer Assurance with Medical Standards

EIZO monitors meet the strictest medical, safety, and EMC emission standards.

**All 4 Corners Operable Full-Flat Design**

Full-Flat Design. Design with perfect flat top surfaces offers you touch operation all the way to the edge or corner of the display area without being obstructed by the bezel. Smooth surface also allows easy cleaning of dust and fingerprint attached to the front of the screen.

**Environmentally-Friendly LED Backlight**

By utilizing an energy-efficient LED as a backlight, the monitor achieves a high-brightness and low power consumption at the same time. Since the LED backlight is mercury free, it will reduce any potential impact on the environment when it is disposed of.

**View More with Widescreen**

The widescreen 16:9 aspect ratio provides significantly more horizontal space than the 5:4 aspect ratios of conventional square monitors. The screen is wide enough so that you can keep tool palettes open without covering the window you are working on.

**Mode Selection for Optimum Viewing**

Selectable with the front panel buttons, the CAL Switch function allows for various imaging modes of different modalities such as CR, CT, and endoscope images.

Versatile Positioning for Improved Operability

MS235WT comes with stands that let you tilt the monitor back ideal for touch pen use.

Versatile Positioning for Improved Operability

**3 Year Warranty**

**EIZO and its authorized distributors offer a Three-year limited warranty.**
